

THE MORNING APPEAL.

TUESDAY.....MARCH 5

SCOUNDREL OR FOOL?

The following is from the Sacramento Bee.

The most infamous swindle ever perpetrated against the people of the United States was inaugurated on February 8th, when Grover Cleveland, President, and J. G. Carlisle, Secretary of the Treasury, entered into a secret compact with the Rothschilds and J. Pierpont Morgan to permit them to take \$62,315,000 in Government bonds at their own figure, 104.49. The President and his man Friday of the Treasury claim to have believed that the credit of this Nation was at such a low ebb that these money gamblers came as saviors to the Nation. What kind of saviors they really were can be briefly told: Government 4 per cents with only twelve years to run were selling in open market on February 8th, at 110 and 111. Four per cents with thirty years to run were therefore worth 119. Yet the President and Secretary, without testing the market, without giving the people a chance, without inquiring what our banks would give for such bonds, secretly agreed to sell to the syndicate \$60,315,000 of thirty-year 4 per cents, worth 119 or more, for 104 1/2 or a little less. If there was any doubt that the bonds were really worth 119, it is set at rest by the fact that the loan was subscribed for ten times over at 112 1/2, and that as soon as the syndicate secured control of the bonds, 119 and more was freely offered for them, with no sellers to take the offers.

Here are figures of what this Nation was bunched out of by Cleveland, Carlisle and the gold gamblers, made by the New York World when 118 had been reached:

Face of loan.....\$62,315,000
Syndicate premium at 104.49 2,797,943

United States gets.....\$65,112,943
Syndicate profit at 112 1/2..... 4,835,644

What inside jobbers pay.....\$69,948,587
Inside jobbers' profit to 118. 3,583,113

The public and the United States should have received \$73,531,700. United States has lost..... 8,585,757. Compounded as a sinking fund at 4 per cent. for thirty years, this lost profit would be..... 27,728,677. Or nearly one-half the original loan.

The Bee the other day asserted that Cleveland had shown himself in this matter to be either a scoundrel or a fool, either the confidant and confederate of the swindlers, or their dupe. Harsh words some may say, to use concerning a President of the United States. But are they not true?

PURE FOOD.

There is a bill before the Legislature providing for a food inspector. It is almost a copy of the Ohio law.

A brief summary of the work of the Ohio commission says:

Vinegar sold as cider vinegar is on the market, sold regularly and bought in perfect faith, which is a chemical compound. Jellies and jams were analyzed and found to contain only a small percentage of the real fruits. Jellies were made of water, grape and cane sugar, ash and coloring matter. Spices yielded, on analysis, coconut shells, rice, flour and ashes. Coffee contained burnt starch, burnt sugar and saccharine extracts. The revelations from the analysis of two tonics, much advertised and recommended as especially beneficial to mothers and children, were startling. Druggists were made the defendants. Four arrests were made, three for selling goods not true to label, and one for selling a predigested food which contained no food element. These goods are sold over the whole country. One tonic proved to be Bordeaux wine and did not contain a fraction of the drug that gave it its name. It yielded on analysis one-fifth alcohol. The other tonic, two brands of which were analyzed, claimed to be free from alcohol, one contained 15% of pure alcohol, the other yielded none, and in both a large percentage of salicylic acid was found. Tablets said to contain five grains of medicine yielded one. Another tablet did not contain a fraction of a grain.

These and other facts worked up a proper public sentiment throughout Ohio, and it has become easy to secure convictions under the law. As a result there was a scramble to get adulterated goods out of Ohio, and a notification by Ohio merchants to the manufacturers and supply houses that purity of all further shipments must be guaranteed.

The adulterated goods that Ohio refuses are being supplied to the people

of other States. The Legislature should give the State Board of Health ample power to see that they are not allowed to poison the people of Nevada.

Medal Day.

There was a good turnout at the range yesterday to contest for the medals. The weather was fine and some excellent shooting was done. Following are the scores:

The bill depriving all county officers of the power to conduct county business and placing everything in the hands of the county commissioners is a bill that ought to be squelched. The commissioners have too much power now, officers who give bonds ought to be able to conduct their own official business.

The bill to regulate the price of groceries, and aimed at Leslie Bell's store, is still in the Ways and Means Committee, and they don't dare to report it to the House.

The News copies, and comments on approvingly, an article from the Truckee Republican, which originally appeared in these columns about ten days ago.
